

Niche

02 · NICHE

Create a hypothesis and go to market; the market will show you the right way.

THE FORMULA

I help [audience] achieve [transformation].

THE THREE PARTS OF A GOOD NICHE

A specific group you could picture · a powerful pain point that keeps them awake · a clearly defined current state and desired state.

THE LANE TEST – RUN IT ON EVERY IDEA

Am I helping someone move from well to better, or am I treating something?

THE TRANSLATION BANK

Treat burnout	Design a sustainable way of working
Manage anxiety	Perform under pressure by design
Process grief	Rebuild a life and identity after a loss
Heal relationship trauma	Build the relationship you want next
Overcome low self-worth	Build the visible confidence to lead
Address perfectionism	Ship work at a pace you can sustain

THE QUESTION THAT DECIDES IT

How many people in this niche could I contact personally within a fortnight? Under ten, and it is the wrong niche for now.

THE FOUR CHECKS · 20 MINUTES EACH, TOP 3 ONLY

Google	Real autocomplete · a full people-also-ask box
--------	--

Reddit and forums	An active thread in their own words
YouTube	Real view counts and engaged comments
Coaches and books	People already paying to solve this

TWO REFRAMES

Competition is proof, not a problem — an empty field usually means no money. And you test it, you don't marry it: the market corrects you faster than more thinking will.

WHAT STARTS THIS WEEK

The connector ask needs nothing but your niche and a sentence. You are not selling, so there is nothing for anyone to say no to.
