01	The Offer Ladder	03
	how your offers climb as you prove value	
02	The Coaching Build	04
	five stages to audit, honestly	
03	The Four Pillars	05
	what a profitable practice stands on	
04	The Lens Flip	06
	the shift from therapist to coach	

Four reference sheets — the strategic spine of Session One. Pin them up; return to them as you build.

The Offer Ladder

Start low to prove it. Climb as you prove value — the price rises with the proof.

01 1:1

Discounted

Gain experience and real case studies, priced low.

02 1:1

Premium pricing

Lift prices as results, confidence and demand grow.

03 Group

Packages

The same outcome, delivered to several clients at once.

04 Leverage

Course · community · Q&A

Assets that serve at scale, without you.

Each stage earns the next — and the price rises with the proof.

The Coaching Build

Five stages build a coaching business. Audit each honestly — then check, refine, repeat.

01 MINDSET

I show up with the mindset of a successful coach.

02 CLARITY

A specific niche with a real, urgent pain.

I understand their deeper fears and desires.

My message speaks directly to them.

03 OFFER

A package that moves them from A to B.

Priced on the value, not the hour.

04 GROWTH

I reach enough of the right people.

I turn interest into booked clients.

A funnel that nurtures to commitment.

05 EVOLVE

I review, refine and improve on results.

AVOID

Not niching down · vague messaging · pricing too low · no follow-up system

The Four Pillars

Four pillars hold up a profitable practice. Get all four right and selling gets simple.

A PROFITABLE COACHING PRACTICE

WHO

Niche

A specific group with a clear, urgent problem you can solve.

WHAT

Transformation

The before → after result they are actually buying.

HOW

Offer

The transformation packaged into one clear, high-value offer.

SAY

Message

Words that make the right people feel it is for them.

Get all four right, and selling stops feeling like selling.

The Lens Flip

One change of lens reframes everything — from fixing problems to unlocking potential.

THERAPIST LENS		→	COACH LENS
	Fix problems <i>Ask “what’s possible?”, not “what’s wrong?”</i>	→	Unlock potential
	Diagnose & treat <i>Clarity over analysis — name the goal.</i>	→	Define outcomes
	Paid per session <i>Time isn’t the product — transformation is.</i>	→	Paid for results
	Open-ended & ongoing <i>A journey with milestones and an end point.</i>	→	A clear pathway
	Stabilise & cope <i>From managing life to designing it.</i>	→	Elevate & thrive
	Manage limitations <i>A setback is data, not identity.</i>	→	Expand potential

 **SPEAK THE NEW LANGUAGE**

Patient → Client Diagnosis → Goals Treatment → Strategy Session → Milestone Coping → Growth

USING THE PLAYBOOK

Build with it.

Start with the pillars

Get who, what, how and what-you-say right — everything else rests on them.

Climb the ladder

Prove value low, then raise the price and scale the offer.

Audit and evolve

Run the five-stage build often; adjust to what the market tells you.

Therapy remains the foundation · Coaching becomes the expansion
